## Mini Dome Camera's

The AVE MD series mini domes are the industry leader in terms of colour camera performance, ease of installation, configuration choices and mounting options. Featuring the latest in CCD and DSP technology, offering exceptional low light performance, accurate colour reproduction and 540 TVL of resolution. This is matched with a high quality 2.9~10mm Auto Iris lens, offering a range of focal lengths to suit the vast majority of applications. The AC/DC Universal Switching Power Supply provides a choice of power options for the installer. The MD4 series has been designed for fast and efficient installation featuring load-able screws for quick and easy surface wall mount, or ceiling installation using the optional quick ceiling install kit. The unique 3-Axis camera gimbal allows unrestricted configuration of lens position, focal length adjustment and focusing. The mini domes are ideally suited for all applications where enhanced resolution and sensitivity are required, such as shopping centres, car parks, schools and airports..
